- Dr. Shinichi Kitaoka, President, Japan International Cooperation Agency
- Dr. Mwele Malecela, Director of NTDs, World Health Organization
- Dr. Haruo Naito, Representative Corporate Officer and CEO, Eisai
- Dr. Christopher Elias, President, Global Development, Bill & Melinda Gates Foundation

AFRICA WILL BE FREE FROM NTDs

The partnership between Africa and Japan
to end neglected tropical diseases

Neglected tropical diseases (NTDs) are diseases of poverty. They affect over 600m people in Africa, yet they are preventable and treatable.

Join us to hear how tackling NTDs can accelerate progress towards Universal Health Coverage and economic growth in Africa.

You will hear about progress to date and priorities for future action between Africa and Japan to free Africa from NTDs.
