

Hepatitis C Partnership for Control and Treatment

Hepatitis C PACT Presentations and Posters at World Hepatitis Summit 2022

The [Hepatitis C Partnership for Control and Treatment \(Hepatitis C PACT\)](#) was launched in 2022 among a number of partner organizations to join forces to address the continuing disparities in access to diagnostics and treatment for the hepatitis C virus in low- and middle-income countries. Several partners, including Treatment Action Group, Drugs for Neglected Diseases *initiative* (DNDi), Médecins Sans Frontières, Foundation for Innovative New Diagnostics, and more will be presenting at the [2022 World Hepatitis Summit](#), which takes place virtually this year on June 7-10, 2022. French and Spanish live interpretation will be made available during the conference.

Below find a list of presentations and posters by Hepatitis C PACT partners during the summit. Be sure to mark your calendars and join us!
